Chime Social Enterprise is committed to delivering high quality care to patients with hearing difficulties. To help us measure how well we are doing this we conducted a comprehensive survey of our patients. We are delighted to announce that patients believe we are delivering a high quality robust service for the NHS and the patients themselves.

What do patients think when they are first fitted with hearing aids?

## Overall quality of service

**Our results show that patients value our services extremely highly. 96% of our patients would recommend this service to both family and friends!**

## Examples of some patient comments:

“If only the rest of the NHS was half as good”

“Very happy with the service I have had. Life is so much better that I can hear”

“Thank you for helping me to hear again.”

“First class service, can not be bettered”

“Excellent service and lovely people”

“Excellent treatment and exceptional care”

## ACCESSIBILITY

It is important for our services to be easy to communicate with, accessible for people from their homes and to be able to provide patients with the necessary care quickly.

These are our findings.

- ◆ 97.7% of our patients are very satisfied or satisfied with their experience communicating with our services.
- ◆ 97.7% of our patients are very satisfied or satisfied with the time waited for an appointment.
- ◆ 97.7% of our patients are very satisfied or satisfied with the location of their appointment.
- ◆ 84.0% of our patients are very satisfied or satisfied with the hearing aid repair and battery replacement service.

## How we will use the results

The outcomes for the survey were brilliant but we're proud of being an organisation that wants to constantly improve.

From this survey we have highlighted areas for improvement, and we are taking the following actions to enhance our service:

- ◆ We will strive to increase the number of locality services and audiologists available in order to meet increasing demands.
- ◆ We will work with locality managers to help improve our surroundings in locality services which we provide .
- ◆ We will work towards improving and access at localities for repair and maintenance appointments.
