What is Access to Work?

An Access to Work grant can pay for practical support if you have a disability, health or mental health condition to help you:

- start working
- stay in work
- move into self-employment or start a business

How much you get depends on your circumstances.

The money doesn't have to be paid back and will not affect your other benefits.

Eligibility

- You must be 16 or over. You may be able to get a grant if:
- you have an interview
- you're about to start a job or work trial
- you're in a paid job or self-employed (you can't get a grant for voluntary work)
- you're getting New Enterprise Allowance
- you're starting work experience

Your condition

Your disability or health condition must either:

- affect your ability to do a job
- mean you have to pay work-related costs, eg special computer equipment or travel costs because you can't use public transport

It must also be likely to last at least a year.

How to claim

Follow these steps if you think you can get help from Access to Work.

1. Contact Access to Work.
2. Print the Access to Work eligibility letter and take it to your employer or to a job interview.
3. When an adviser contacts you and your employer, tell them about the help and support you need.
