Important advice for those fitted with pacemakers or implanted defibrillators

As you have reported that you have a pacemaker or implanted defibrillator please follow these precautions.

- Please keep the wireless hearing aids at least 15cm (6 inches) away from the active implant. If you experience any interference, do not use the wireless hearing aids and contact your Cardiology Department or the manufacturer of the implant.
- Keep hearing aids, batteries, magnets (i.e. battery handling tool, EasyPhone magnet), at least 15 cm (6 inches) away from the active implant.
- You are **not** permitted to use wireless accessories for your hearing aids. Ask your hearing care professional for details.
- Please note that interference can also be caused by power lines, electrostatic discharge, airport metal detectors etc.

Useful information

Repair Clinics

We offer walk-in (open) repair clinics at two of our Exeter sites, and appointment only (bookable) repair clinics at several of our localities. This is for servicing of hearing aids and simple repairs (e.g., ear mould re-tubing, ear mould modifications and replacement aids).

Open: 09:15-16:00 hours (Wonford); 08:30-16:00 (CHC)

Bookable: contact Chime to arrange an appointment

	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
Wonford (RD&E)	Open	Open	Open	Open	Open	Bookable
